passion pursuit

Creativity has always excited me.

The joy of using words to conjure up sentences, the innovations in design and aesthetics involved in completing a creative work had always fascinated me. This trait which I imbibed since childhood had also influenced my choice of career.

So I followed my passion and stepped into the advertising and public relations field and eventually worked with India's top English newspapers. It was during this time that I learned about all the nitty gritty of advertising, conceptualising ideas, innovation and media marketing.

Why a magazine ? Yes, the motive for starting a magazine stemmed from the passion towards media, presenting things in a passionate way with hands-on experience in the trade has steered me to ideate a Lifestyle Magazine.
