**CONSULTANCY SERVICES FOR PREPARATION OF
DPR FOR 02 Nos. MINOR BRIDGES ACROSS GARUDALA
VAAGU IN PULIVENDULA.**

Tender Notice No: APUIAML/SC/PLVD/2020-21/03

Febreuary, 2021

ANDHRA PRADESH URBAN INFRASTRUCTURE ASSET MANAGEMENT LIMITED, VIJAYAWADA

I. INTRODUCTION

GoAP envisages to develop few 'Model Towns' in the state; APUIAML is assisting the government in this initiative. In this regard, APUIAML has entered into an agreement with Pulivendula Area Development Agency (PADA) for the project 'Development of Pulivendula as Model Town' for provision of provision of End-to-End services, in phased manner. As a part of the project the initial milestone submissions for APUIAML are (i) Integrated Infrastructure Master Plan (IIMP), (ii) Draft DPRs, (iii) Final DPRs and (iv) Tender Documents for all identified sectors/sub projects.

In this regard, an IIMP was prepared for the sector 'Traffic and Transportation' amongst other sectors by APUIAML and was presented to the Honorable CM, GoAP through PADA; the same was approved. As a part of the milestone submissions for the 'Traffic and Transportation' sector, it is required to prepare DPR, and Tender Documents for 'Development of 02 nos. of minor bridges across Garudala Vaagu in Pulivendula, as a necessary component. In this regard, APUIAML desires to engage competent consultant for delivery of the same.

- e. **Design of Bridges**
 - i. The Consultant shall prepare General Arrangement Drawing (GAD) of bridges and its approaches showing the salient features of the bridges and structures proposed to be constructed along the road sections covered under the scope of work. These salient features such as
 - ii. alignment, overall length, span arrangement, cross section, deck level, founding level, type of bridge, number lanes and other components such as superstructure, substructure, foundation, bearing, expansion joint, return wall etc. considering suitable earthquake Zone etc shall be finalized based upon aesthetics and geotechnical studies, cost effectiveness and ease of construction. The GAD shall be supplemented by Preliminary designs only to assess the cost of bridges. In respect of span arrangement, navigational requirements of Inland water ways authority (IWWA), type of bridge, MOC and its approaches (like RCC retaining wall/RES/natural earth slope etc) with alternatives with cost-benefit implications should be submitted to enable client to approve the best alternative.
 - iii. Upon the approval of GAD by client/Irrigation/IWWA/R&B, detailed designs of bridges are to be submitted by the consultants, which shall be designed for loading as per IRC / relevant codes. Aesthetic appeal of bridge is also essential along with the structural designs.
 - iv. The consultants shall furnish the detailed design and working drawing for suitable protection works, if any
 - v. All relevant design parameter shall be incorporated.
 - vi. Design of Approach Roads, Pavement with its Junctions, horizontal & vertical alignment as per the standard norms. The provision of appropriate markings and signs shall be made, wherever the Existing site conditions do not permit the adherence to the site distance requirement as per the standard norms.

- vii. The Consultant shall prepare for the most appropriate design option establish on life cycle costing and techno- economic considerations taking design period as per standards.
- viii. Estimation of Quantities and Project Costs: The consultant shall prepare detailed estimates for quantities considering designs and project cost including the cost of environmental and social safeguards proposed based on MORTH Standard Data Book/ latest APSOR. The estimation of quantity shall be based on detailed design of various components of the projects. Non SOR items in detailed estimate, shall be supported with 3 market quotations.
- ix. Proof checking payment shall be taken care by APUIAML. However, all final designs & drawings shall be got vetted from any other government college / agency. Supporting for Proof Checking, Final Technical Sanction from respective department shall be part of the consultant. APUIAML shall help in coordination.
- x. Design and construction / construction methodology should consider the existing bridge adjacent to the proposed new bridge. Existing bridge location map, coordinates, Pics are enclosed in the document. Persons / agencies quoting for the project are encouraged to visit the site before quoting.
- xi. The Consultant can consider the option of construction of new bridge in the same alignment of existing bridge also by demolition of existing Bridge.

f. Submission of Detailed Project Report

i. Volume-I, Main Report :

- a) The report will present the executive summary, project background, surveys and investigations, analysis and interpretation of survey an investigation data with maps, charts and diagrams showing locations and details of existing features and the essential features of improvement. The basic data obtained from the field studies and investigations and input data used for the preliminary design shall be submitted in separate volume as an Appendix to Main Report. The Report shall also include the project clearances from various concerned Govt. agencies that matter for project implementation.

ii. Volume- II, Design Report :

- a) This volume shall contain design calculations, supported by computer printout of calculations wherever applicable. The Report shall clearly bring out the various features of design standards adopted for the study. The design report deal with the design of bridges based on sub-soil exploration report including the complete details of boring done, analysis

and interpretation of data and the selection of design parameters shall be included as an Appendix to the Design Report.

- b) The detailed design for all features should be carried out as per relevant codes. However, there may be situations wherein it has not been possible to strictly adhere to the design standards due to existing site conditions, restrictions and other considerations, the report should clearly bring out the details of these aspects and standards adopted. Consultant shall also include the launching or erection scheme (including design) for construction of bridge.
- c) All the designs must be as per applicable IS/ IRC codes and MoRTH Guidelines

iii. Volume- III, Cost Estimates

- a) This volume will present the analysis of rates for all items of works including rate analysis as per applicable SSR. The details of unit rate of materials at source, carriage charges, any other applicable charges. labour rates, machine charges as considered in arriving at unit rates will be included in this volume. Shall provide the detailed Bill of Quantities for all items of works including the Special specifications for the works, which are not covered in MORTH.

iv. Volume-IV, Drawing Volume

- a) GAD of Main Bridge, details working/Structural drawings of bridge superstructure / sub structure/bearing (including reinforcement schedule) etc. required for construction
- b) Drawings for Road signages, approaches, Marking and other Facilities.

v. Volume-V, Draft Civil Work Bid Documents:

- a) As per R&B Standards the consultant shall submit the bid documents

B. Final Detailed Project Report (DPR)

- a. To incorporate the suggestions / changes (for all volumes of Draft DPR) as suggested by the client for Draft DPR
- b. Preparation of Final DPR for finalised project components
- c. Discussion with concerned department, making Presentations and obtain technical sanction

C. Tender Document

- a. To incorporate the suggestions / changes as suggested by the client for Vol-V of Final DPR.

IV. MILESTONES & TIMELINES:

#	Activity	Timelines
