ORDER:

The Government of Andhra Pradesh envisages to develop MIG Layouts under the name of ‘Jagananna Smart Townships’ at affordable prices to eligible MIG Applicants. This initiative has been declared as ‘Public Purpose Project’ under relevant Acts and Rules pertaining to both Land Acquisition and for Alienation of Government Lands. To this effect, GoAP have issued detailed guidelines vide G.O 1st read above for development of MIG Layouts under the name of ‘Jagananna Smart Townships’.

2. The program was initially launched by 6 Developmental Authorities and was successful. Owing to the response and demand from the general public and Government employees upon initial launch, the Government now envisages to develop ‘Jagananna Smart Townships’ in each of the Assembly Constituencies. To accomplish this, it is imperative that huge land banks, finances, capacities are required.

3. Therefore, to implement this initiative/program successfully at State level, it is prudent to have an alternate mechanism which can foster and facilitate Public Private Partnerships involving privately owned lands, capacities and investments from private players. This arrangement is envisaged to yield synergic benefits by leveraging on private players’ capacities, government’s branding, existing demand whilst having multiplier effect (economic) in real estate sector in the state.

4. Upon initial discussions and deliberations with various stakeholders, the Government now establishes a policy framework for development of well-planned MIG Layouts under the name of Jagananna Smart Townships, involving private participation through the development model as mentioned at **Annexure - A.**
